SUBJECT INDEX

Adenosine
  carrier, 420
  receptors, 420
Adherence, 213
American cutaneous leishmaniasis, 280
Amino acid sequence, 695
Anti-asalio-GM1, 652
Antibodies
  against the collagen-like region of Clq, 98
  anti-cardiolipin, 485, 557
  anticytoplasmic, 350
  anti-LKM, 543
  anti-mitochondrial, 485
  antinuclear, 385, 409
  antisperm, 179
  anti-TBM, 550
  bispecific, 148
  islet cell surface, 308
  neutralizing, 231
  thyroglobulin, 25
  to phosphatidylinositol phosphate liposomes, 403
Anti-DNA, 79
Anti-4BM nephritis, 341
Antigen/antibody complexes, 166
Antigens
  bacterial, 611
  Class I and Class II MHC, 575
  histocompatibility, 107
  human renal tubular, 33
  HLA-ABC, 632
  Ia, 591
  preparation, 584
  presentation, 611
  S antigen, 591
  sperm, 179
Anti-TNP, 79
Anti-Z-DNA, 394
Arthroscopy, 41
Asialo-GM1, 652
Atherosclerosis, 477
Autoantibodies, 350, 557
Autoimmune thyroid disease, 532
Autoimmunity, 341, 508, 516, 566
Autologous mixed lymphocyte reaction, 57

BCG, 255
β-2-microglobulin, 632
Bone marrow transplantation, 601
Borrelia, 618

C5b-9 complement complex, 477
Ca ionophore, 433
Cardiac transplantation, 575
Cells antigen presenting, 255
Cells
  B cell, 639
  B cell polyclonal activation, 240
  cytotoxic, 255
  cytotoxic T cells, 652
  dendritic, 611
  helper T cells, 601
  immunoglobulin secreting, 240
  mononuclear, 632
  natural killer, 441, 660
  peripheral blood mononuclear, 271
  plasma, 123
  suppressor, 426
  T cells, 48, 358, 441, 591
  T cell depletion, 601
  T cell helper cells, 647
  T cell proliferative responses, 611
  T cell proliferation, 508
Chemiluminescence, 204
Chemotactic factors, 213
Chemotaxis, 204
Chimpanzees, 133
Chlamydia, 246
Chlorhexidine, 157
Chronic active hepatitis, 543
Classical pathway, 468
Clonal analysis, 323
Clq metabolism, 188
Clq solid phase radioimmunoassay, 98
Coeliac disease, 123
Collagen IV, 332
Colony stimulating factors, 198
Common variable immunodeficiency, 420
Complement, 468
Complement depletion, 188
Complement receptor type 1, 501
CR1,C3b receptor, 468
CR1/CR3, 676
Cross-reactions, 485
Crossreactivity, 271, 385
Cryoglobulinaemia, 188
Cyclosporin A, 550, 591
Cysteine-rich, 148
Cytotoxicity, 668, 676
Cytotoxic T lymphocytes, 451, 647

Density, 676
Differentiation, 639
Digestion, 68
Dipyridamole, 420
Discoid lupus erythematosus, 68
DNA, 68
Downregulation, 459
Drug effects, 213
Drug hapten, 157

Ecto-5′-nucleotidase, 426
Elderly, 557
Electroimmunodiffusion, 142
ELISA, 157, 702
Erythrocyte CR1, 89
Erythrocytes, 368, 501

Experimental autoimmune uveitis, 591
Experimental syphilis, 263

Familial amyloidosis, 695
Feto-maternal histocompatibility, 116
Flow cytometry, 632
Fluorescence microscopy, 166

Globular domain, 332
Glomerular basement membrane, 332
Glycoprotein, 33
Goodpasture syndrome, 332
gp120, 231
Graft-versus-host disease, 652
Guinea pig model, 263

Hashimoto's disease, 314
Hashimoto's thyroiditis, 323, 508
Healthy, 41
Heart, 575
Heymann nephritis, 33
Histones, 409
HLA Class I, 368
HLA Class II, 524
HLA-DP, 532
HLA-DQ, 532
HLA-DR, 107, 532
HLA sharing, 116
Hodgkin's disease, 660
HTLV-III infection, 231

Natural immunity, 16
Nephritis, 79
Neutrophils, 204, 213, 668, 676
  polymorphonuclear, 221
Oncogenes, 493
Ontogeny of alloreactivity, 451
Oxygen-dependent, 668

Paraproteinaemia, 188
Penicillamine, 375
Phagocytes, 68
Phenotype, 375
Phorbol myristate acetate, 433
Placental ferritin, 702
Platelets, 409
Prealbumin, 695
Pregnancy, 702
Preterm delivery, 702
Primary *in vitro* immunization, 508
Prostaglandins, 280
Pulmonary, 459

Rabbit eyes, 166
Rats
  brown Norway, 550
  BB, 308
Reiter's syndrome, 246
Rejection, 575
Reversal reaction, 10
Rheumatoid arthritis, 48, 394
  juvenile, 57
  patients, 368

Schistosoma japonicum, 291
Schistosoma mansoni, 291, 299
Schistosomula, 676
Scleroderma, 375
Skin-tests, 584
Splenectomy, 459
Spontaneous abortion, 116

Spontaneous diabetes, 308
Staphylococcus aureus Cowan I, 358
Subclass restriction, 543
Subpopulations, 16
Superoxide anion, 213
Suppression, 255
Suppressor factor, 48
Synovial membrane, 41
Systemic lupus erythematosus, 68, 79, 89, 98, 394, 485, 493, 501
  patients, 368

T cell clones
  $CD4^+$, 255
  human, 271
T cell regulation-subclass restriction, 314
T helper/suppressor ratio, 508
Thymectomy, 25
Thyroglobulin, 516
Thyroid
  autoimmunity, 524
  epithelium, 524, 532
Thyroiditis, 25
Thyroid stimulating hormone, 524
Tick-borne, 618
Tissue *c-myc*, 493
T lymphocyte, 16, 299
Tuberculin, 584
Tumour necrosis factor a, 441

Virus
  Coxsackievirus, B3, 566
  cytomegalovirus, 16
  feline leukaemia, 240
Vitamin D3, 639

Wegener's granulomatosis, 350

VOLUME 69 · NUMBER 2 · AUGUST 1987

ANNAMARI RANKI, S. H. WEISS, SIRKKA-LIISA VALLE, J. ANTONEN & K. J. E. KROHN: Neutralizing antibodies in HIV (HTLV-III) infection: correlation with clinical outcome and antibody response against different viral proteins 231
M. YASUDA, R. A. GOOD & NOORBIBI K. DAY: Influence of inactivated feline retrovirus on feline alpha interferon and immunoglobulin production 240
R. D. INMAN, M. E. A. JOHNSTON, B. CHIU, J. FALK & M. PETRIC: Immunochemical analysis of immune response to *Chlamydia trachomatis* in Reiter's syndrome and nonspecific urethritis 246
A. S. MUSTAFA & T. GODAL: BCG induced $CD4^+$ cytotoxic T cells from BCG vaccinated healthy subjects: relation between cytotoxicity and suppression *in vitro* 255
K. WICHER, A. JAKUBOWSKI & VICTORIA WICHER: Humoral response in *Treponema pallidum*-infected guinea pigs 263
PHAEDRA SIMITSEK, C. CHIZZOLINI & L. PERRIN: Malaria specific human T cell clones: crossreactivity with various plasmodia species 271
MARIANELLA CASTES, DINORAH TRUJILLO, D. SCOTT & A. J. RONDON: Demonstration of an indomethacin-sensitive mechanism regulating immune reactivity in American cutaneous leishmaniasis patients 280
A. RUPPEL, Y. E. SHI, D. X. WEI & H. J. DIESFELD: Sera of *Schistosoma japonicum*-infected patients cross-react with diagnostic 31/32 kD proteins of *S. mansoni* 291
MARTINE DAMONNEVILLE, FLORENCE VELGE, CLAUDIE VERWAERDE, J. PESTEL, C. AURIAULT & A. CAPRON: Generation and functional analysis of T cell lines and clones specific for schistosomula released products (SRP-A) 299
BETTY M. DEAN, A. J. BONE, ANNE-MARIE VAREY, R. WALKER, JOYCE D. BAIRD & ANNE COOKE: Insulin autoantibodies, islet cell surface antibodies and the development of spontaneous diabetes in the BB/Edinburgh rat 308
N. G. FOROUHI, S. M. MCLACHLAN, S. L. MIDDLETON, M. C. ATHERTON, P. BAYLIS, F. CLARK & B. REES SMITH: T cell regulation of thyroglobulin autoantibody IgG subclasses in Hashimoto's thryroiditis 314
G. F. DEL PRETE, A. TIRI, S. MARIOTTI, A. PINCHERA, M. RICCI & S. ROMAGNANI: Enhanced production of γ-interferon by thyroid-derived T cell clones from patients with Hashimoto's thyroiditis 323
J. WIESLANDER, MERJA KATAJA & B. G. HUDSON: Characterization of the human Goodpasture antigen 332

CHRISTINE BOWMAN, KLARA AMBRUS & C. M. LOCKWOOD: Restriction of human IgG subclass expression in the population of auto-antibodies to glomerular basement membrane 341

GITTA LÜDEMAN & W. L. GROSS: Autoantibodies against cytoplasmic structures of neutrophil granulocytes in Wegener's granulomatosis 350

ROSE GOLDSTEIN, L. PERELMUTTER & J. KARSH: *In vitro* IgM and IgM rheumatoid factor production in response to *Staphylococcus aureus* Cowan I: evidence for the role of Leu-2-positive T suppressor cells and radiosensitive T helper cells 358

CAROLYN M. GILES, M. J. WALPORT, J. DAVID & C. DARKE: Expression of MHC Class I determinants on erythrocytes of SLE patients 368

B. FREUNDLICH & S. A. JIMENEZ: Phenotype of peripheral blood lymphocytes in patients with progressive systemic sclerosis: activated T lymphocytes and the effect of D-penicillamine therapy 375

M. KIMURA, S. IDA, K. SHIMADA & Y. KANAI: Specificity of anti-nuclear antibodies induced in F_1 mice undergoing the graft-vs-host reaction: isotypes and cross-reactivities 385

P. D. VAN HELDEN, LUREN VAN LILL, A. J. BESTER, LINDA DE WAAL & EILEEN G. HOAL-VAN HELDEN: A new assay for anti-DNA antibodies in serum which includes the measurement of anti-Z-DNA 394

BARBARA M. ALVING, B. BANERJI, W. E. FOGLER & C. R. ALVING: Lupus anticoagulant activities of murine monoclonal antibodies to liposomal phosphatidylinositol phosphate 403

LEAH COSGROVE, F. ALDERUCCIO, B.-H. TOH, J. PEDERSON, ANN HOLLIDAY & I. MCKENZIE: A monoclonal antibody to the surface membrane of human platelets which inhibits ristocetin- and collagen-induced platelet aggregation reacts with H1 histones of cell nuclei 409

TARULATA SHAH, R. J. SIMPSON, A. D. B. WEBSTER & T. J. PETERS: Binding of adenosine and receptor-specific analogues to lymphocytes from control subjects and patients with common variable immunodeficiency 420

M. MASSAIA, U. DIANZANI, PAOLA PIOPPO, E. SIBILLA, M. BOCCADORO & A. PILERI: Multiple myeloma: Ecto-5′nucleotidase deficiency of suppressor/cytotoxic (CD8) lymphocytes is a marker for the expansion of suppressor T cells 426

R. K. CHOPRA, J. E. NAGEL, F. J. CHREST, W. M. BOTO, R. S. PYLE, BARBARA DORSEY, M. MCCOY, NIKKI HOLBROOK & W. H. ADLER: Regulation of interleukin 2 and interleukin 2 receptor gene expression in human T cells: I. Effect of Ca^{2+}-ionophore on phorbol myristate acetate co-stimulated cells 433

S. E. CHRISTMAS, A. MEAGER & M. MOORE: Production of interferon and tumour necrosis factor by cloned human natural cytotoxic lymphocytes and T cells 441

L. S. RAYFIELD, L. BRENT, A. BOYLSTON, C. H. RODECK & BERNADETTE MODELL: Human fetal lymphocytes require T cell growth factors for cytotoxic responses 451

ELIZABETH M. ALLEN, P. ABRAMOFF, J. N. FINK & N. J. CALVANICO: Splenic regulation of the murine pulmonary lymph node response 459

J.-P. PACCAUD, GERTRUDE STEIGER, A. G. SJÖHOLM, P. J. SPAETH & J. A. SCHIFFERLI: Tetanus toxoid–anti-tetanus toxoid complexes: a potential model to study the complement transport system for immune complex in humans 468

F. NICULESCU, F. HUGO, H. G. RUS, R. VLAICU & S. BHAKDI: Quantitative evaluation of the terminal C5b-9 complement complex by ELISA in human atherosclerotic arteries 477

VOLUME 69 · NUMBER 3 · SEPTEMBER 1987

O. MEYER, N. ABUAF, L. CYNA, J. C. HOMBERG, M. F. KAHN & A. RYCKEWAERT: Anti-mitochondrial type 5 antibodies and anti-cardiolipin antibodies in systemic lupus erythematosus and auto-immune disease 485

G. HUSBY, R. C. WILLIAMS JR, ROSEMARY A. WATT, S. G. WEST & K. S. K. TUNG: Tissue *c-myc* protein expression and immune response in systemic lupus erythematosus 493

M. Walport, Yin C. Ng & P. J. Lachmann: Erythrocytes transfused into patients with SLE and haemolytic anaemia lose complement receptor type 1 from their cell surface 501
Susan A. Stern & P. C. Dau: Induction of *in vitro* autoimmune responses by mononuclear blood cells in Hashimoto's thyroiditis 508
C. T. J. Chan, P. G. H. Byfield, R. L. Himsworth & P. Shepherd: Human autoantibodies to thyroglobulin are directed towards a restricted number of human specific epitopes 516
I. Todd, R. Pujol-Borrell, L. J. Hammond, J. M. McNally, M. Feldmann & G. F. Bottazzo: Enhancement of thyrocyte HLA Class II expression by thyroid stimulating hormone 524
I. Todd, R. Pujol-Borrell, B. A. S. Abdul-Karim, L. J. Hammond, M. Feldmann & G. F. Bottazzo: HLA-D subregion expression by thyroid epithelium in autoimmune thyroid diseases and induced in vitro 532
M. Peakman, Ava Lobo-Yeo, Giorgina Mieli-Vergani, E. T. Davies, A. P. Mowat & D. Vergani: Characterization of anti-liver kidney microsomal antibody in childhood autoimmune chronic active hepatitis: evidence for IgG1 subclass restriction, polyclonality and non cross-reactivity with hepatocyte surface antigens 543
A. Giménez, F. Leyva-Cobián, Celia Fierro, Mercedes Río, Teresa Bricio & F. Mampaso: Effect of cyclosporin A on autoimmune tubulointerstitial nephritis in the brown Norway rat 550
M. N. Manoussaki, A. G. Tzioufas, M. P. Silis, P. J. E. Pange, J. Goudevenos & H. M. Moutsopoulos: High prevalence of anti-cardiolipin and other autoantibodies in a healthy elderly population 557
N. Neu, Susan W. Craig, N. R. Rose, Floria Alvarez & K. W. Beisel: Coxsackievirus induced myocarditis in mice: cardiac myosin autoantibodies do not cross-react with the virus 566
Amanda Suitters, Marlene Rose, A. Higgins & M. H. Yacoub: MHC antigen expression in sequential biopsies from cardiac transplant patients—correlation with rejection 575
Susan M. Morley, J. Swanson Beck, J. M. Grange, R. A. Brown & T. Kardjito: The method of preparation of an antigen may influence the cellular reaction to it in skin tests for delayed hypersensitivity: comparison between responses to two different reagents prepared from *Mycobacterium tuberculosis* 584
Janet Liversidge, A. W. Thomson, H. F. Sewell & J. V. Forrester: EAU in the guinea pig: inhibition of cell-mediated immunity and Ia antigen expression by cyclosporin A 591
J. Z. Wimperis, M. K. Brenner, H. G. Drexler, A. V. Hoffbrand & H. G. Prentice: Rapid recovery of helper activity following T cell depleted allogeneic marrow transplant 601
A. Mittal & Indira Nath: Human T cell proliferative responses to particulate microbial antigens are supported by populations enriched in dendritic cells 611
Ingegerd Olsson, L. Hammarström, C. I. E. Smith, A. Hovmark & Eva Åsbrink: IgG subclasses of specific antibodies in *Ixodes ricinus*-borne borreliosis 618
S. B. Pruett & A. Lackey: Apparent interleukin 2 (IL-2) inhibitory activity of human serum is due to rapid killing of IL-2-dependent mouse cells 624
M. H. Nissen, J. K. Larsen, T. Plesner, B. K. Olesen & P. Ernst: α-Interferon induces enhanced expression of HLA-ABC antigens and β-2-microglobulin *in vivo* and *in vitro* in various subsets of human lymphoid cells 632
W-C. Chen, B. Vayuvegula & S. Gupta: 1,25-Dihydroxyvitamin D_3-mediated inhibition of human B cell differentiation 639
U. Botzenhardt & J. Müller-Quernheim: Primary cytotoxic T cell response *in vitro* against Mls antigens in NZB-mice 647
K. Varkila: Depletion of Asialo-GM1$^+$ cells from the F1 recipient mice prior to irradiation and transfusion of parental spleen cells prevents mortality to acute graft-versus-host disease and induction of anti-host specific cytotoxic T cells 652
D. Douer, N. Shaked & B. Ramot: Normal natural killer cell activity in Hodgkin's disease patients in remission 660
J. R. Geffner, Mirta Giordano, Marina Palermo, Adriana Prat, Graciela P.

SEREBRINSKY & M. A. ISTURITZ: Neutrophil-mediated cytotoxicity triggered by immune complexes: the role of reactive oxygen metabolites 668

R. MOQBEL, H. B. RICHERSON, A. J. MACDONALD, G. M. WALSH, ADELE HARTNELL, M. J. WALPORT & A. B. KAY: Chemotactic factor-induced low density neutrophils express enhanced complement (CR1 and CR3) receptors and increased complement-dependent cytotoxicity 676

NANCY HOGG: Human mononuclear phagocyte molecules and the use of monoclonal antibodies in their detection 687

P. WESTERMARK, K. SLETTEN & B-O. OLOFSSON: Prealbumin variants in the amyloid fibrils of Swedish familial amyloidotic polyneuropathy 695

CHAYA MOROZ, HANNA BESSLER, LEA SIROTA, FREDERIKA DULITZKY & M. DJALDETTI: Diffence in the placental ferritin levels measured by a specific monoclonal antibody enzymoassay in preterm and term delivery 702
